esybox MAX

NOT JUST A PUMP

DAB has always designed solutions for the pressurization of water, paying close attention to the needs of the market. Always evolving and innovating to meet the needs of end-users, installers, maintenance engineers and designers has led to the arrival of the new ESYBOX MAX. Designed with the idea of revolutionising the way we create pumping sets, E.SYBOX MAX is an efficient "all in one" solution that is highly advanced and versatile, yet user friendly. Made by people, for people.

ENGINEER

MODULAR INTEGRATION

Esybox Max is the most compact and integrated booster set available on the market.

AS QUICK AS A "CLICK"

Install Esydock into your pipework system and simply "plug" your pumps in. A final quick set up via the digital DConnect app completes your installation project.

INSTALLER

EASY TO MOVE & INSTALL

If you have difficulties getting to the pumps location, due to narrow stairways and corridors etc, you can choose to assemble your booster on-site which will only require moving smaller lighter boxes into the location then carry out our quick assembly steps.

MAINTAINER

EASY TO MAINTAIN

Just log on through your PC or smartphone to the DConnect app. All you need to do is check the stored data and change any setting with just one click.
