MISSION

To provide the best cost-effective high-quality solutions to help people protect their lives, their loved-ones' lives, their properties, and their assets from the danger of fire, and its' consequences.

VISION

Advanced Systems aims to be one of the leading companies in the Middle East & Africa by widening our customer network. Therefore, we invest in our technical team by getting them trained through our manufacturers and keep them updated by all new technicalities & systems, to be able to support & serve better our clients.

BRANDS

FirePro Fire Extinguishing Aerosol System :

Fire extinguishing aerosol system brand, European origin, with very high certifications & approvals, such as; UL/ULC/LPCB/BSI/ISO/KIWA/CSIRO/KFI/EPA SNAP/DNV GL/KEMA .. and much more.

System reference code NFPA 2010, friendly environment.

FirePro is the only system that is suitable for occupied areas by humans as per (EPA & KEMA). FirePro fire extinguishing aerosol system is used as total flooding. FirePro system can be considered as alternative for FM200 system. No need for pipes or nozzles, no space is required as the installation is on the ceiling, or the wall, making it easier to install, no maintenance needed, and not pressurized. FirePro also has explosion-proof units (ATEX certified).

Application examples :

Industry & commerce, electricity substations, electrical cabinets or panels, transformers rooms, warehouses, archives, engine rooms, control rooms, generator rooms, ... and more.
